2016 Business Report

The global economy in 2015 saw constant fluctuation due to uncertainties. After implementing an organizational restructuring and adding more resources for exploring new markets in 2015, the Company plans to improve its profit position through improved efficiency, increasing margins, and revitalizing idle assets. Under the joint efforts of our colleagues, the Company has shown substantial improvement in efficiency and margins. In 2015, E Ink had a combined revenue of NT\$ 13.3 billion, a gross profit of NT\$ 4.15 billion with a gross profit margin of 31.2% and a net income after tax of NT\$ 539 million. The earnings per share (EPS) for 2015 were NT\$ 0.47.

In 2015, the Company continued its investment in electronic paper displays (EPD) to explore new markets and applications. The demand for eReaders remains stable. Our key customers have constantly improved their products to meet customer demands and the eReader market continues to be a stable revenue source. Electronic Shelf Labels (ESL) is another major product line which performed very well in 2015. We received requests from global customers to deploy ESL in their systems. The accumulated shipments have reached 60 million units. The Company anticipates this demand to continue in 2016 and believes it can achieve a milestone of 100 million shipped units.

The potential for growth exists in a number of new markets. Many customers are adopting E Ink Mobius into their new mobile and wearable products. The Company demonstrated large area EPD designs during Touch Taiwan 2015, including a tiled sign consisting of four 32 inch digital signs, and an E Ink Prism wall that can change images and color dynamically which is targeted for architecture applications. These products and markets have the potential for high growth in the coming years.

As EPDs are becoming increasingly adopted in ESL, mobile devices, digital signage, and architecture, the Company has been actively engaged in developing cooperative plans with strategic partners. The goal is to integrate upstream and downstream supply chain resources to expand the EPD ecosystem. This will provide customers with improved and complete design options, making it easier for product designers to adopt EPDs and continue the diversification of the EPD market.

In 2015, the Company saw significant outcomes both in ePaper technology and product development. We launched E Ink Prism at CES which received a lot of attention. At SID, we announced E Ink Spectra yellow that expands the market for retail applications. Furthermore, E Ink's wirelessly powered battery-less display won the 2015 Gold Panel Best Technology Award for its technology breakthrough, new market application and business possibilities. In addition, the Joan Meeting Room Assistant jointly developed by E Ink and Visionect was named as a CES 2106 Innovation Award Honoree in the Eco-Design and

Sustainable Technologies product category. The selection recognizes Joans eco-friendly design and reduced environmental impact. Capabilities made possible by E Ink's EPD technology.

Operation Highlights in 2016

With the foundation set in 2015, the Company will continue a number of strategic projects in operational management, and will develop cooperative projects with our strategic partners. Our goal is to achieve continued growth by together expanding the ePaper market and enable growth for new product applications. To achieve our performance objectives, we will implement the following operational strategies in 2016:

(1) Strengthen the integration of production and R&D to improve production yield. With the goal of developing forward-looking technologies, the Company continues its goal and R&D efforts to develop critical EPD technologies. We have achieved breakthroughs in a number of areas such as front light, touch, flexible and color EPD, and have been adopted in a number of different market applications. As product applications continue to diversify, the Company will establish integrated plans between product management and technical operations to deliver products that are more competitive, better fit the demands of diversified markets, and meet customer product requirements.

(2) Introduce lean production to improve production efficiency
The Company will introduce lean operation techniques not only in production, but also in R&D, product management, and operational units. This will improve production efficiency and optimize cost. We believe this can result in improved product quality, reduced manufacturing time, and a reduction in labor required per unit produced.

(3) Revitalize idle assets
For production lines that are not running efficiently and may contain idle assets, the Company will adopt a number of projects to revitalize assets and enhance operational efficiency.

(4) Actively establish the EPD ecosystem
In order to achieve our goal of increasing revenue and profits a complete ecosystem is needed to support EPD designs. To achieve this, the Company is moving aggressively to form a strategic partnerships with upstream and downstream suppliers; companies in related markets and applications; and promote technology exchange with major component suppliers. The Company will also collaborate with chip suppliers in a joint effort to develop new chip designs to make EPD products more price competitive and more easy to design-in.

(5) Continue to promote new products and application markets
The Company will continue to develop new markets in digital signage, architecture and other high value-add applications. We will collaborate with leading brands, system integrators, channel distributors, and architecture designers to expand our business and markets. We believe this will become a main driving forces for future profits.

Prospect

The Company is optimistic about the broad applications of ePaper products in both eReader and non-eReader markets because ePaper's unique characteristics such as ultra-low power consumption, lightweight, flexible, and viewable under all lighting conditions. In a new era of environmentally conscious consumers, energy saving products and product designers wanting to deploy services without incurring the high cost to build out infrastructure, EPD based products have a distinct advantage over other competing options.

In 2016, the Company will strive to improve operational efficiency and allocate more R&D resources. We will continue our efforts in product and technology innovation to create greater value for our customers. With strong support from our staff, suppliers, customers, and partners, we believe we will execute our plan in a pragmatic manner and consistently make progress to running a profitable business, improve shareholder value and meet the expectations of the general public.

- Article 7 All proceedings of the shareholders' meeting shall be recorded with an audio or video tape, and such audio tapes or video tapes shall be kept for at least one year.
- Article 8 When it is time to commence a shareholders' meeting, the person presiding the meeting shall immediately commence the meeting, provided, however, that if the total amount of shares represented at the meeting do not exceed one-half of the total number of the issued shares, the person presiding the meeting may postpone the meeting; provided, however, that the postponement of the meeting shall be limited to two times, and the total time postponed shall not exceed one hour. If the meeting has been postponed for two times, but the total amount of shares represented at the meeting still do not exceed one-half of the total number of the issued shares, a

tentative resolution may be adopted in accordance with Paragraph 1 of Article 175 of the Company Act of ROC, if the total amount of shares represented at the meeting is more than one-third of the total number of the issued shares.

If, before the end of the meeting, the total amount of shares represented at the meeting becomes to exceed one-half of the total number of the issued shares, the person presiding the meeting may present the previously adopted tentative resolution to the meeting for resolution in accordance with Article 174 of the Company Act of ROC.

Article 9 If a shareholders' meeting is convened by the board of directors, the agenda of the meeting shall be prepared by the board of directors, and the meeting shall be proceeded with in accordance with the agenda. The agenda shall not be changed without a resolution made by the shareholders' meeting.

If a shareholders' meeting is not convened by the board of directors, but by the person who is entitled to convene such meeting, the preceding paragraph shall apply mutatis mutandis to the change of agenda of the meeting.

The person presiding the meeting shall not adjourn a meeting without a resolution adopted by shareholders if the motions (including extraordinary motions) in the agenda arranged in the above two Paragraphs shall not have been resolved. If the person presiding the meeting declares the adjournment of the meeting in a manner in violation of these rules, a new person presiding the meeting may be elected to continue the proceedings of the meeting by a resolution representing the majority of the shares represented at the meeting.

If the meeting is duly adjourned, the shareholders may not elect another person presiding the meeting to continue to hold the meeting at the same place or at any other place.

Article 10 A shareholder wishing to speak in a shareholders' meeting shall first fill out a slip, specifying therein the gist of his/her speech, his/her shareholder identification number (or the number of attendance certification) and his/her name, and the person presiding the meeting shall determine such shareholders' order of giving a speech.

A shareholder who submits his/her slip for a speech but does not actually speak shall be considered as not having given a speech. If the contents of his/her speech are different from those specified on the slip, the contents of his speech shall prevail.

When a shareholder is giving a speech, the other shareholders shall not interrupt unless they have obtained the prior consent from the person presiding the meeting and the speaking shareholder, and the person presiding the meeting may prevent others from interrupting.

Article 11 A shareholder shall not speak more than two times and each of his speech shall not exceed five minutes for one subject, unless he has obtained the prior consent from the person presiding the meeting.

If a shareholder violates the preceding paragraph or his/her speech is irrelevant to the subject, the person presiding the meeting may stop him from continuing speaking.

Article 12 If corporate shareholder is mandated by another shareholder to attend a shareholders' meeting, it may designate only one representative to the meeting.

If a corporate shareholder designates two or more representatives to represent it at the shareholders' meeting, only one of its representatives may speak on the same

subject.

- Article 15 The persons scrutinizing the casting of votes and the counting thereof for resolutions shall be designated by the person presiding the meeting, provided, however, that the person scrutinizing the casting of votes shall be a shareholder. The results of resolution(s) shall be announced in the meeting immediately, and recorded in the minutes of the meeting.
- Article 16 During the meeting, the person presiding the meeting may announce for a break with a time period he thinks fit.
- Article 17 Except for the voting rights restricted or excluded according to Article 179 paragraph 2 and Article 197-1 of the Company Act, a shareholder shall have one voting right in respect of each share in his/her/its possession.
Unless otherwise provided by laws and regulations or the Articles of Incorporation, the resolutions of the shareholders' meeting shall be adopted by the majority of the shares represented at the meeting.
- Article 17-1 The voting right at a shareholders' meeting may be exercised in writing or by way of electronic transmission, provided, however, that the method for exercising the voting right shall be described in the shareholders' meeting notice to be given to the shareholders. A shareholder who exercises his/her/its voting right at a shareholders' meeting in writing or by way of electronic transmission shall be deemed to have attended the shareholders' meeting in person, but shall be deemed to have waived his/her/its voting right in respective of any extemporary motion(s) and/or the amendment(s) to the original proposal(s) at the shareholders' meeting.
In case a shareholder elects to exercise his/her/its voting right in writing or by way of electronic transmission, his/her/its declaration of intention shall be served to the company at least two days prior to the scheduled meeting date of the shareholders' meeting, whereas if two or more declarations of the same intention are served to the company, the first declaration of such intention received shall prevail unless an explicit statement to revoke the previous declaration is made in the declaration which comes later.
In case a shareholder who has exercised his/her/its voting right in writing or by way of electronic transmission intends to attend the shareholders' meeting in person, he/she/it shall, at least two days prior to the scheduled meeting date of the shareholders' meeting and in the same manner previously used in exercising his/her/its voting power, serve a separate declaration of intention to rescind his/her/its previous declaration of intention made in exercising the voting right under the preceding paragraph. In the absence of a timely rescission of the previous declaration of intention, the voting right exercised in writing or by way of electronic transmission shall prevail. In case a shareholder has exercised his/her/its voting right in writing or by way of electronic transmission, and has also authorized a proxy to attend the shareholders' meeting in his/her/its behalf, the voting right exercised by the authorized

proxy for the said shareholder shall prevail.

Unless otherwise provided by the Company Act or the Articles of Incorporation, the resolutions of the shareholders' meeting shall be adopted by the majority of the voting rights represented at the meeting. When voting, the Chairman or its designated personnel should announce case by case the total amount of voting rights represented by those attending shareholders and the shareholders vote accordingly. The results of shareholders' agreements, disagreements or waivers for each case should be entered into MOPS after the shareholders' meeting.

- Article 18 If there is an amendment or a substitute proposal to a subject being discussed, the person presiding the meeting may combine the amendment or substitute proposal into the original subject, and determine their orders for voting.
